DETAILED ACTION

1. This first office action is in response to the application filed on August 28, 2001, which claims 1-157 are presented for examination.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-141, drawn to provide dynamic contact information, classified in class 705, subclass 7 and 8.

Group II. Claims 142-157, drawn to identify a changes in a calendar program for a user in response to a selected event, classified in class 707, subclass 1 and 3.

3. The inventions are distinct, each from the other because of the following reasons:
Inventions I and II are related as sub-combination disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I have separate utility such as providing dynamic contact information, while invention II is useable for identifying a changes in a calendar program for a user in response to a selected event. See M.P.E.P. § 806.05(d).

Art Unit: 2172:

4. These inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification. Restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and the search required for Group II is not required for Group I. Restriction for examination purposes as indicated is proper.

6. A telephone call was made to Edward H. Duffield (Reg. No. 25,970) on September 16, 2003, to request an oral election to the above restriction requirement, but did not result in an election because Stephen could not be reached.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant also is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
